## eco pool heating

### Global Remote Control Module Option.

“Calyenty designs GSM Control module for total remote pool heating management and control.”

Now available on all “S” model heat pumps.

- Remote control by sms messaging.
- Turn your swimming pool heat pump on or off from your mobile phone.
- Change your pool temperature by text message.
- Check your pool heat pump status by sms text message (is it running?, current temperature and set temperature.)
- Simple remote pool heating management.
- Second home, live abroad, planning a trip, have the pool warm for when you arrive!
- Tenants arriving, nobody to turn on the pool heater. No problem, send it a text.
- Tenants complaining the pool is too cool? no problem, turn it up with an sms text message.
- Tenants taking advantage of too much heat?, no problem - turn it down with a text.

€260.00 + iva

Calyenty SC is a premium manufacturer of swimming pool heating systems, incorporating solar heat exchanger technologies into Spain's leading pool heat pump supply company. First for quality, service and support. <http://www.calyenty.com>
